OUR SERVICES

CUSTOM MANUFACTURING

Work stations, cabinets, rolling platforms,
work benches.

PARTS MANUFACTURING

Forming and stamping of metal parts with
controlled force and repeatability.

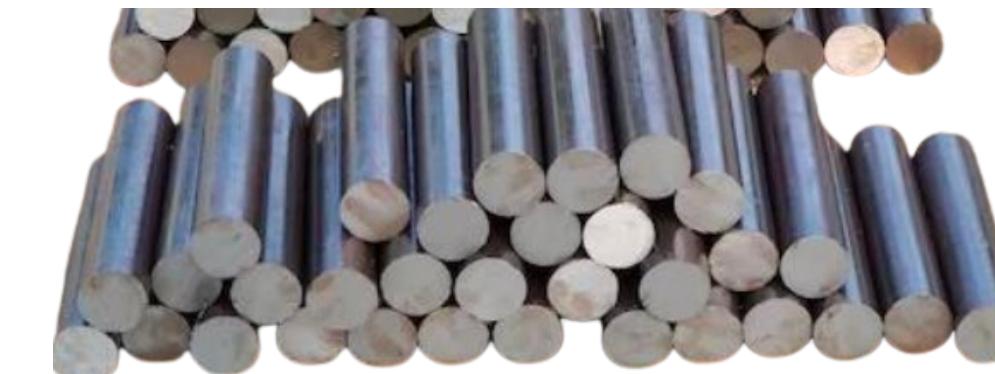

PARTS MANUFACTURING

Production of parts manufacturing.

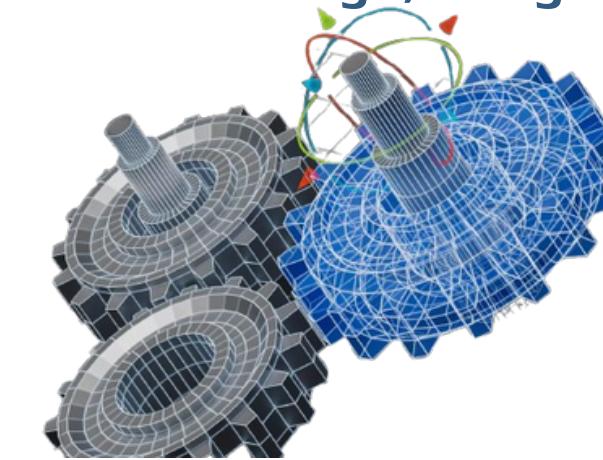

MANUFACTURING CENTER

Raw material, steel cutting, welding,
manufacturing, machining, painting.

ENGINEERING DEPARTMENT

Mechanical design, integration.

SPECIALIZED WELDING AND CUTTING EQUIPMENT

We have cutting-edge technology to offer the highest quality welding and cutting services in the metallurgical industry.

OXYFUEL CUTTING EQUIPMENT

MIG WELDING

PLASMA CUTTING

ELECTRODE WELDING

TIG WELDING

MICROWIRE

HIGH PRECISION INDUSTRIAL MACHINERY

VERTICAL MILLING MACHINE

SURFACE GRINDER

BAND SAW

HORIZONTAL LATHE

HIGH PRECISION INDUSTRIAL MACHINERY

MECHANICAL PRESS

CLARK 1.5T FORKLIFT

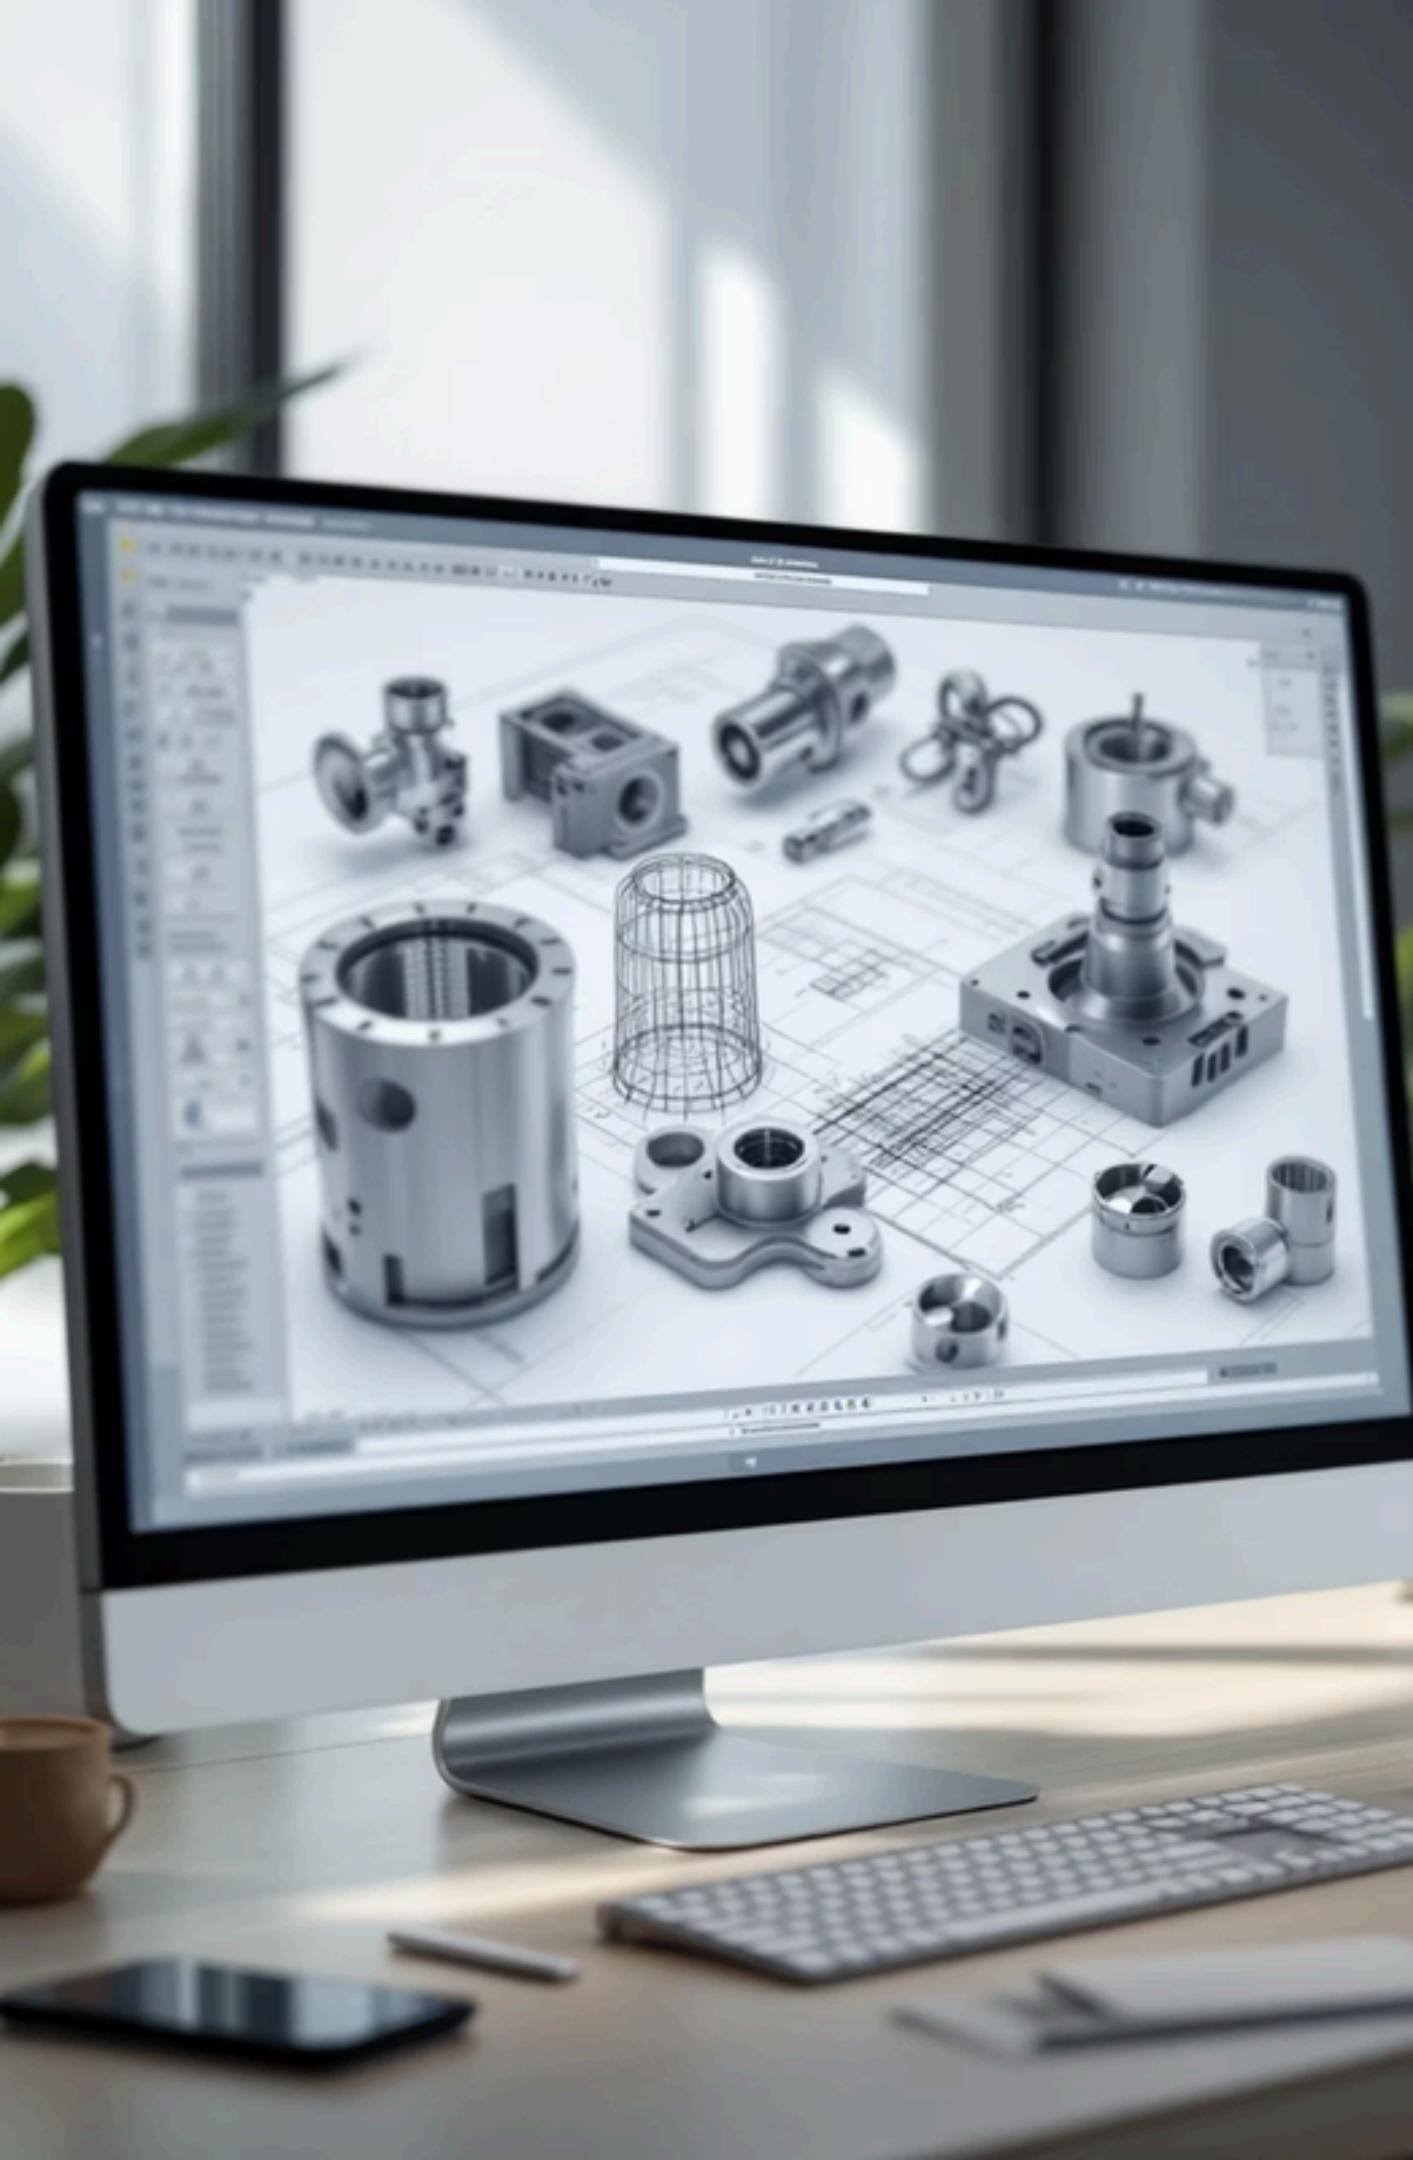

CNC LATHE

VERTICAL MACHINING CENTER

PROFESSIONAL DESIGN SOFTWARE CAD/CAM

State-of-the-art digital tools for the design, simulation and programming of industrial parts with millimeter precision.

AutoCAD

2D and 3D technical design for industrial plans, plant layouts and mechanical component specifications

SolidWorks

Advanced parametric modeling for complex assembly design, stress simulation, and tolerance analysis

Mastercam X

Professional CAM programming for toolpath generation and CNC process optimization

PORTFOLIO OF COMPLETED WORK

Proven experience in CNC turning and manufacturing of gears with industrial precision for various manufacturing sectors.

CNC TURNING

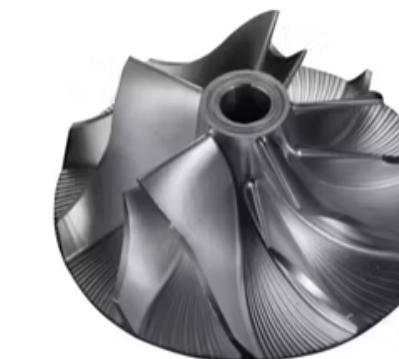

PORTFOLIO OF COMPLETED WORK

Manufacturing of industrial gears and crowns with industrial precision for various manufacturing sectors.

INDUSTRIAL GEARS AND CROWNS

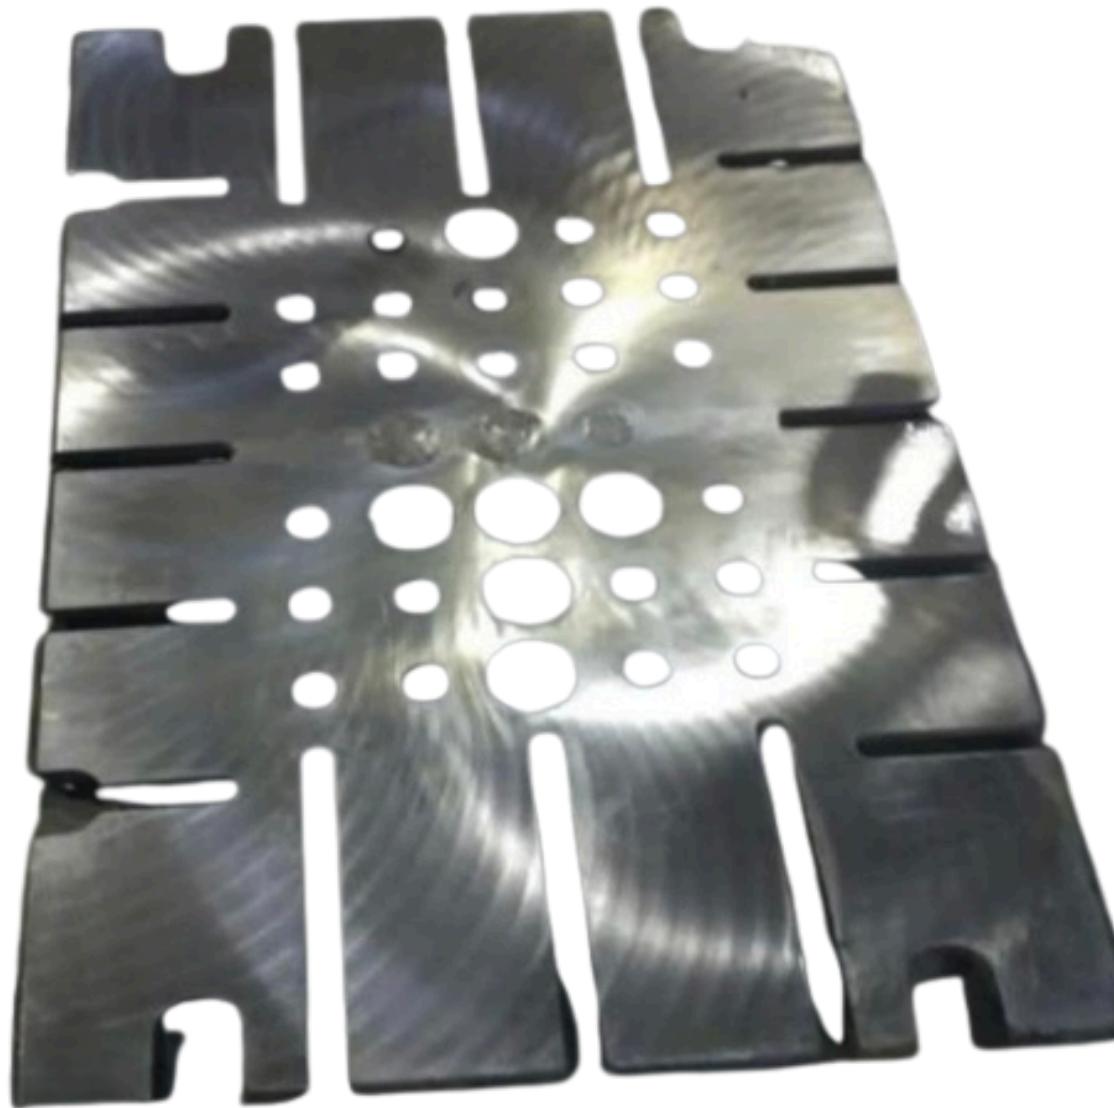

SPECIALIZED RECTIFICATION SERVICES

Advanced capabilities in customized precision grinding to optimize production processes.

HIGH PRECISION GRINDING

DEVICES AND FIXTURES

Advanced capabilities in manufacturing custom clamping devices to optimize production processes.

CUSTOM DEVICES AND FIXTURES

PROJECT MANUFACTURING

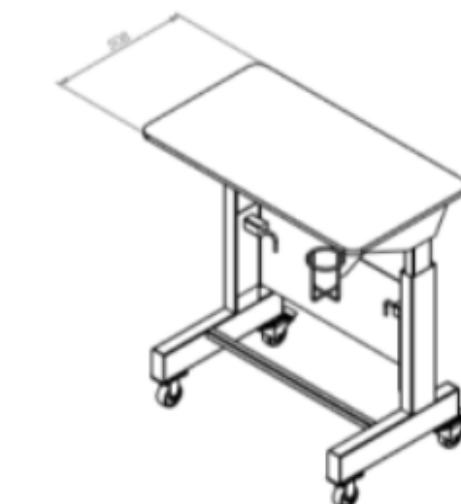

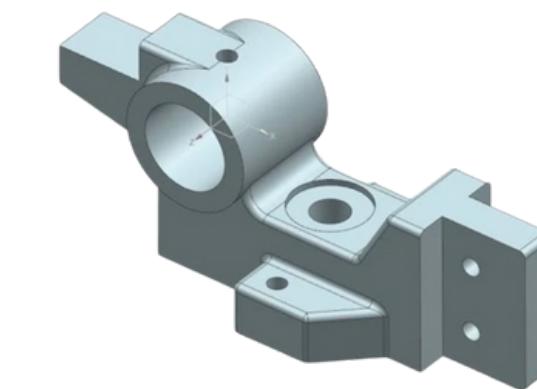

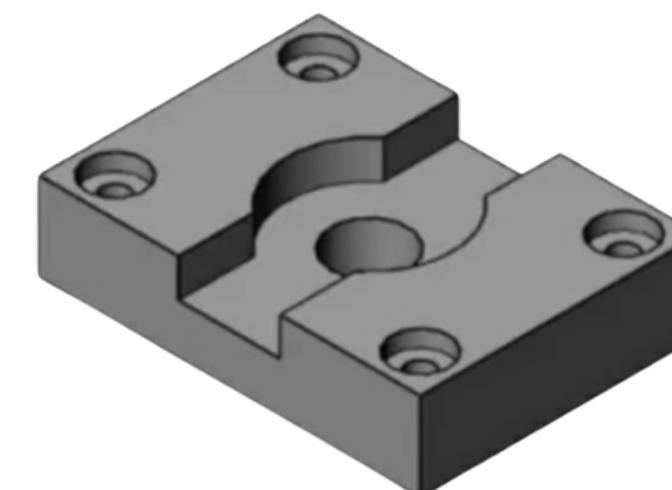

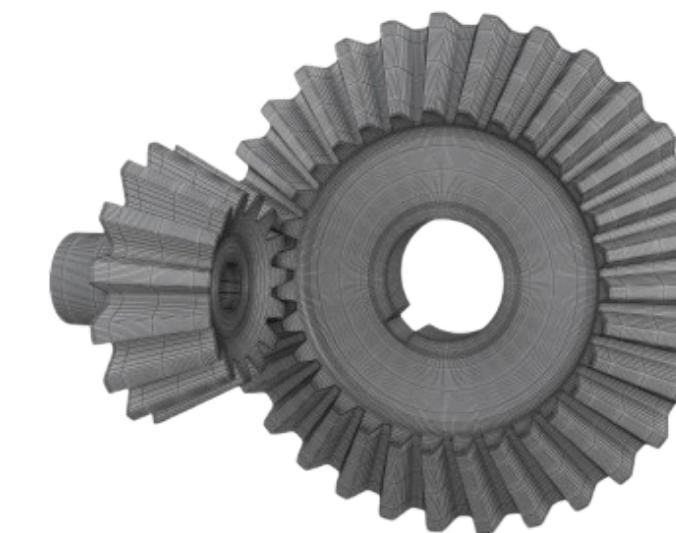

Specialized capabilities in the comprehensive design and manufacture of customized projects, guaranteeing robust, precise solutions adapted to the technical needs of each client.

2D/3D DESIGN STATION

Advanced capabilities in 2D design and 3D modeling geared towards CNC manufacturing, creating precise geometries, technical drawings and simulations that guarantee the correct manufacturing of parts and optimize machining processes.

OUR CLIENTS

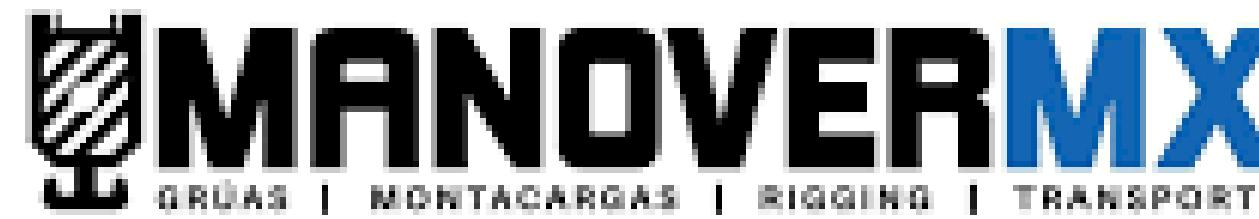

LIBERTY
STEEL
INDUSTRIES, INC.

INGETEK

CATERPILLAR

OPmobility

W WOODBRIDGE INOAC
Technical Products

IAM MOLD & DIE

La ingeniería protegiendo
el entorno natural.
GAVIONES MÉXICO.

OUR LOCATION

Easily accessible facilities in Saltillo, Coahuila.

ADDRESS OF OUR FACILITIES

Linderos de los Palos Blancos 310
Col. San José de los Cerritos
Saltillo, Coahuila CP 25294

Convenient Access

- 1 minute from Blvd. Fundadores
- 7 minutes from Rancho Seco
- Easily accessible industrial zone
